ZyXEL

Perfect Personal Firewall/VPN Security Solution

Benefits

Proactive End-point Security

Stay in a secure and trusted LAN, and you still need personal and private protection. The easy-to-pack, compact network device is equipped with advanced safety and security features connect you to the LAN or Internet through any broadband connection. With a powerful SPI Firewall and Network Outbreak Prevention, it behaves as one of the frontline protection for individual PC from Internet attacks.

Portable, Secure, Personal Security Appliance

With the light-weight, compact device, the ZyWALL P1 also provides VPN connection for mobiles users to create a private secure hotspot for yourself whenever you go. No extra sophisticated software installation and configuration effort needed. Once you're connected over VPN, it's just like being attached to the local network.

Ease of Deployment

Comparing with software-based applications, the ZyWALL P1 is a truly plug-and-play, hardware-based personal security device. It avoids software installation complexity by benefiting more from ease-of-trouble shooting and management effort. Besides, a familiar web browser interface and setup wizard makes installation and configuration easier.

With USB power, you don't need extra adaptor
Establishes an IPSec VPN tunnel to your corporate network
Advanced SPI Firewall protects your PC, whenever and wherever you connect
